

SIMPLE VERSATILE POTENT

Healeon HD PRP
Providing One Simple Solution

HEALEON
HD PRP 

**PROVIDING THE CLINICIAN WITH
HIGH DENSITY PLATELET-RICH PLASMA
OFFERING A VARIETY OF OPTIONS
AND VOLUMES**

A PLATFORM TO PROCESS AND CAPTURE OPTIMAL PLATELET CONCENTRATES

Healeon Medical is the leader in developing point-of-care cellular platforms to process and concentrate autologous biologics that may help optimize conditions for healing. Today, Healeon's device platforms and PRP preparation kits are the gold standard for cell processing.

Healeon HD-PRP features an array of sizes and accessories, including 15cc and 30cc vacutainers, all capable of producing a more potent PRP in denser variable concentrations and volumes suitable for any application where PRP is indicated.

BENEFITS OF HEALEON HD PRP

- Simple To Use
- Higher Volume Per Draw = Best Value Per Yield
- Produces High Concentration and High Density PRP
- Flexibility with a Broad Range of Sizes (15-30 mL)
- Reproducible Concentrations from Consistent Platelet Capture
- Best Value Per mL
- Balanced pH Due to Low Hematocrit / Removes 99% Contaminating RBCs

REGULATORY STATUS: FDA-cleared 510(k) Class II medical device. Healeon HD PRP is designed to be used for the safe and rapid preparation of autologous platelet-rich-plasma (PRP) from a small sample of peripheral blood at the patient point of care. The PRP is mixed with autograft and/or allograft bone prior to application to a bony defect for improving healing characteristics.
